

# Baptist Financial Services Merchant Card Facility

Baptist Financial Services Australia Limited (BFS) in partnership with the Commonwealth Bank of Australia (CBA) offers a merchant card facility with a range of options to eligible clients.

These facilities offer unique advantages:

- ✚ They can save time and money in processing payments,
- ✚ They offer the convenience for your payers to pay by card,
- ✚ It allows you to accept any MASTERCARD or VISA including both debit and credit cards,
- ✚ It provides secure settlements to your nominated BFS account.

The following options are available for Merchant Card Facilities:

## GiveWay Payment Portal

The GiveWay payment platform offers a very accessible and cost-effective merchant card facility to accept payments. The payer completes all relevant details through the GiveWay payment page for the relevant campaign (purpose) nominated by your organisation. This page can be linked to your own website, or a link can be included in an email or any other social media format you might use. It can be used for one off or periodical payments. The advantage of utilising the GiveWay platform is that, once established, it eliminates any administration by you to process payments.

No monthly fee is charged to have this facility making it very cost effective.

The GiveWay platform also provides a facility and option for payments to be made direct from an account with another financial institution in the form of a direct debit payment in addition to card transactions.

Full reporting of all transactions is also provided to you on a weekly basis.

## iGive

iGive is designed specifically for offering payments and is established using the GiveWay payment portal outlined above, but with no commission charges or fees. It is an entirely free service offered by BFS to help facilitate

offerings for churches. Tokens and other collateral are available to promote this within church congregations. Please ask for more details if this is of interest.

## CBA Albert Point of Sale Device

Where a physical point of sale device is required to efficiently process payments on the spot, then the Albert device is available at an additional cost. Monthly charges and commission charges on payments apply.

The Albert device is designed for busy events, it accepts swipe, chip & PIN, and contactless payments with a secure and efficient settlement of payments to your BFS account. This is useful for events, schools, cafes, or other applications requiring immediate payment and confirmation. The Albert is easy to use and helps to remove the handling of cash providing a convenient, efficient, and secure method to accept payments.

## CBA BPOINT Back Office

This is only applicable to larger organisations, such as schools, who require a bulk upload of credit card payments, with an establishment fee, monthly fees, and a commission charge. Further technical details are available on request and strict protocols and conditions apply.

## HOW TO APPLY

You may apply for the various merchant card facilities by completing the relevant application form. Please contact our BFS Client Services team or your State Relationship Manager. To set up a BFS CBA Merchant Card facility you will need to have a BFS or Indue account. If you do not have an account, you will need to apply for a BFS or Indue account using the relevant application form.

## Fees and charges

Additional fees and specific charges apply, and as will be advised on application. These additional charges are also available on request or from our websites at [www.bfs.org.au](http://www.bfs.org.au) and [www.giveway.org.au](http://www.giveway.org.au), and may vary from time to time.
